

I Get So High (With You Girl)

Marc Mowrey, 2008

Sometimes the world seems just like a race
Whether I win or if I'm shown my place

I know where to come back
For my good love
I know where to turn
When push it comes to shove

I get so high with you girl
You ease my mind, you do girl
You do me fine, oh you do girl
I just get high with you girl

All I'm trying to say now
Is I'm with you
The world's turned upside down
But one and one still makes two
You stick by my side
Through every kind up and down
I know what that's worth
Oh Lord I been around

I get so high with you girl
You ease my mind, you do girl
You do me fine, oh you do girl
I just get high with you girl
