

Never Tasted Love

Here comes the dawn
Another night has gone
The faces change
Our lives remain the same

We mark our time
By the weeks that pass us by
Living inside this hive
Come on out, little girl
Don't be shy
Think of all the time we've wasted
Never, ever even tasted love.

Another day
Another chance to lose your way
Swept aside
With each passing tide

Don't be ashamed
You have another name
Outside this box we made.
Don't be shy, little girl
Now's the time
Cause you know I was wasted
The very first time I tasted love

Solo

Don't be shy, little girl
Now's the time
Cause you know I was wasted
The very first time I tasted love
